

Dear Recruiter:

Nearly 5 years of commercial real estate and retail experience in Asia (Shanghai, China) market, not only builds up my professional skills to handle and achieve all the tasks strong and efficiently. It also definitely helps me to think outside of the box and bring some fresh blood to the company. Negotiating and operating with both retail and F&B tenants gives me the ability to professionally work with all kinds of clients. Strategic planning for shopping malls, complex projects, and outlets is another skill I build up during previous work. Please take a look at my profile for more detailed information! Thank you very much!
